COURSE PROSPECTUS

Our aim....

Have you ever found Bible reading difficult or frustrating?

Have you ever heard anyone say "if God wanted to talk to us, He would have made it easier to understand"?

If so, this Seminar is ideal for you.

The purpose of this Seminar is to provide you with the skills and tools you need to read and understand the Bible for yourself, all in a friendly and comfortable environment.

Whether you are already familiar with the Bible or are new to reading it, this Seminar will provide you with the ability and, we hope, the desire to begin reading more effectively.

You will learn...

* Where the Bible came from
* How to remove the "mystery" which is often cast around the Bible
* How to learn more in less time using effective study tools
* How to overcome the difficult language sometimes used in the Bible
* An overview of the structure of the books of the Bible
* The history and chronology of events in the Bible
* Tips for letting the Bible interpret itself
* How to read carefully
* When an understanding the Hebrew and Greek original texts can help, but is not essential to understanding the Bible
* How science is reconciled with the Bible
* What happens at death
* The importance of context to avoid misquoting a single passage
* About the Jews and why they are so important in the Bible
* Why there is an Old Testament and a New Testament
* Why there are four gospels
* Why God allows so much suffering and evil in the world
* How critics of the Bible "prove" their criticism, and how to respond
* How the Bible answers the age-old question: "Is man good or evil?"
* How to use a simple plan for reading the whole Bible in a year
